Summary

Creative web developer specializing in responsive, user-friendly websites. Demonstrated ability to work closely with clients and design teams, turning visions into reality and boosting web presence and user engagement. Eager to join a dynamic team in a role that promises new challenges and opportunities for growth.

Professional Experience

Web Developer - Bartlett Idea Co.

February 2022 - Present

- Collaborate with diverse clientele to create and maintain engaging, high-performance websites
- Utilize modern web technologies to develop responsive and user-friendly websites.
- Partner with design teams for aesthetic and functional enhancements across multiple projects
- Innovate by developing custom WordPress plugins, enhancing client experiences
- Perform comprehensive website maintenance for optimal performance, including updates, backups, and security

Key Projects

IronCraft USA (Bartlett Idea Co.)

URL: <https://ironcraftusa.com/>

- Redesigned the website from the ground up in collaboration with the client to meet their wants and needs
- Created a custom plugin integrating Smartsheet for dynamic content management across 150+ product pages
- Boosted page load speeds by over 20% through custom PHP caching and transients
- Created a custom plugin to pull trade show data from Smartsheet using their API and display it on the website using PHP, JavaScript, HTML, and CSS
- Utilized WordPress plugins to implement custom features, including custom post types (Products, Applications), forms, and user management systems

My Equipment Specs (Bartlett Idea Co.)

URL: <https://myequipmentspecs.com/>

- Developed a responsive and user-friendly website using modern web technologies
- Created custom web applications to assist users in selecting optimal skid steers, excavators, and tractors using Smartsheet API, JavaScript and PHP. This enhanced decision-making for customers, increasing sales and reducing product returns.
- Enhanced website aesthetics and functionality using CSS, HTML, and PHP

PharmaMed Inc. (Bartlett Idea Co.)

URL: <https://pharmamedinc.com/>

- Completely redesigned the website using a custom Divi theme achieving a unique and engaging user interface
- Collaborated closely with the marketing team to align the website's design and content with PharmaMed's branding and communication strategy
- Optimized website content, including titles, descriptions, headings, and images, for improved search engine rankings and user experience
